Summary

Driven and community-focused second-year IT student at Taita Taveta University with a strong passion for technology, innovation, and empowering fellow students through digital skills. Experienced in software development, web development, IoT projects, and mentorship. As **Technical Mentor at eMobilis Mobile Technology Institute** and **Technical Lead at GDG Taita Taveta University**, I guide projects, oversee development, and ensure best practices in coding, system design, and documentation. I actively lead initiatives such as Notion adoption on campus and my BLUEBIN IoT project to inspire and equip young innovators.

Education

Taita Taveta University , Voi, Kenya	08/2024 - Present
Bachelor of Science Information Technology	
eMobilis Technology Training Institute , Nairobi, Kenya	2024/Sep - 2024/Dec
Web Development Certificate	

Professional Experience

- **Notion Campus Leader | Taita Taveta University — 2025**

Leading the first Notion community at TTU

Helping students adopt digital tools for productivity and learning

Planning workshops and campus outreach activities

Collaborating with other Notion leaders across Kenya

- **Technical Mentor | eMobilis Technology Training Institute — 2025**

Guided students in digital skills, Git/GitHub usage, and web development.

Shared learning materials and updates across WhatsApp and online groups.

Supported classroom engagement, improving student participation and confidence

Facilitated discussions and troubleshooting sessions, enhancing digital literacy.

- **Freelance Web Developer | Self-employed** **2025- 2025**

Designed and developed the official website for **UPPA (Universal Project Partnership Association)** using Django, HTML, CSS, and Bootstrap.

Enhanced UPPA's **online presence**, enabling them to showcase projects, share updates, and attract new partners.

Improved **member engagement and accessibility** by creating a responsive, user-friendly interface that works seamlessly across devices.

Provided a **centralized communication platform**, making it easier for stakeholders to connect with the organization.

- **Portfolio Developer | Clinton Munene Portfolio 2025/2025**

Built and deployed a personal portfolio website for Clinton Murithi using Django, HTML, CSS, and Bootstrap.

Created a **professional platform** for showcasing career achievements, projects, and skills.

Improved **online visibility and branding**, enabling Clinton to share his work with potential employers and collaborators.
